

Iconset Kit

About this app

The name of this app is Iconset Kit. Iconset Kit is a professional macOS desktop application to generate the Applcon.appiconset folder assets for macOS, iOS, watchOS and Xcode mobile and desktop app development. It runs locally on your computer with no cloud features and all data stays on your computer. It is regularly updated and improved to make it faster and more reliable for you. This app is completely free of charge.

System requirements and basic usage

Iconset Kit was designed to be used only on macOS Ventura (macOS 13.0) or newer and Xcode 14 or newer. Use the appropriate export option to generate the correct Applcon.appiconset folder for Retina or Non-Retina display. When you'll press the Generate Applcon button, the application will generate the Applcon.appiconset folder. In order to properly display the Applcon assets, you'll have to drag & drop the generated Applcon.appiconset folder to your Xcode project. Navigate to Assets.xcassets and replace the Applcon asset catalog. Now you'll see all the Applcon sizes for macOS, iOS or watchOS app. Go to Product and press Clean Build Folder (⇧ + ⌘ + K) then press Build (⌘ + B) and Run (⌘ + R) your app.
